Dear Irene,

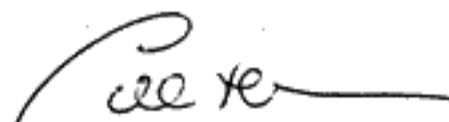

Please find enclosed a copy of our 93/94 funding application to the BFI, plus an activity report and financial breakdown for 92/93. We are copying these papers to you for two reasons: firstly, it seems unclear who will be considering the application after Ian leaves Distribution, and would therefore like you to be kept informed in case your comments are requested. Secondly, we understand that there is a possibility of some of our funding being brought under the remit of the LFVDA. Again, we are unsure who is currently making decisions on funding applications there, so it seemed appropriate to copy this application to you in the first instance.

If you have any comments or can give us further clarification then please let us know. Thanks, and have a good Christmas break.

Best wishes
