30th April 1977

Dear Rodney,

Thank you for your letter of the 22nd. We recognise that further discussion may be necessary to clarify LVA's position, though alternatively we felt that the application (particularly the second submission relating specifically to need for support on setting up the first stage ie the library/distribution) was acceptably thorough and detailed, and we would argue that most of the points raised in your recent letter had already been covered there.

Nevertheless, we are keen to promote this venture, and would very much like to meet as you suggest. Please let us know when this might be possible at your earliest convenience.

Best wishes,

David Hall for London Video Arts
