Dear Steven,

The following two pages contain the text that was written to announce the VHS package that we are currently preparing to produce of the video/performance work by Abramovic & Ulay.

This issue should be made available (for sale only) for the price of Dfl. 1.200,- for the complete package, in a nicely designed box.

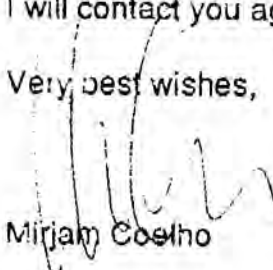

Production will however only take place if enough people place an order. The package will be produced in a limited edition of 240 copies, numbered and signed.

I could imagine that it would be of great help to us if distribution of this flyer within the UK would be organised by you in collaboration with the Oxford Museum of Modern Art.

Apart from this special VHS edition we have to think of a compilation of Marina's work on U-matic. Since we have remastered all her material on Betacam SP it would be fairly easy to compile a special program on U-matic. We will have to discuss the financial consequences as soon as the amount of work to be done will become clearer.

I will contact you again next week.

Very best wishes,

Mirjam Coelho
