CINENOVA PRESENTS: NEW WAVE WOMEN

Four programmes of short experimental films focusing on female sexuality, identity and representation.

Dear

We are pleased to enclose details of our two touring packages, each of which includes two programmes of approximately 75 minutes. Programmes may be booked separately to play in their own right or as a support programme to a main feature.

Both packages provide distinctive examples of experimental films made by women over the last decade. The shared preoccupations of many of the films prompts us to characterise this body of work as a 'new wave' in women's film-making. The work addresses issues of female identity and sexuality while also playing with difference and representation. These films provide new kinds of challenges and pleasures; quirky, humorous and always entertaining.

The titles are principally from a British and North American context. They are all available on 16mm and are drawn primarily from the Cinenova catalogue. Programme notes are enclosed but please contact us if you require any further information or stills.

The hire charges are: £ 50.00 per programme
£100.00 per package (two programmes)

Although charges can be negotiated according to the circumstances of the screening.

Cinenova is currently seeking more bookings of these packages in order to receive promised funding from the Arts Council. We desperately need to receive bookings in the next two weeks or this funding will be withdrawn. Even if you are not in a position to confirm a booking, a provisional booking will help us secure this much needed money in these times of cut-backs!

Many thanks for your interest.

Yours sincerely

Helen de Witt
