Dear Sarah,

We are actually getting somewhere with bookings for the **NEW WAVE WOMEN** tour but it won't now start until April. We therefore need to sort out what's happening with the following which I think are the remaining prints distributed through you aside from CHAMELEON and FATIMA'S LETTER:

ENDANGERED
YOU TAKE CARE NOW
NEON DIVER

As we intend to splice the films together on one reel for each programme, it's going to be problematic if there are bookings on these prints during the period of the tour, which will probably be around six months. I believe Liane has spoken to Tina about NEON DIVER. Can you let me know what the state of play is on bookings between April and say October.

Thanks

Gill Henderson
